

# BIOMEDICAL

Innovation in Federal Healthcare

## Capability Statement

**PSL Biomedical** is a federal healthcare solutions provider dedicated to supporting warfighter medical readiness and improving patient outcomes for America's military service members and veterans. We identify and deliver the most innovative **medical devices, pharmaceuticals, and biologic technologies** to federal healthcare agencies. Our team combines clinical insight, market intelligence, and deep federal procurement experience to anticipate the evolving needs of VA and DoD healthcare systems. By aligning emerging, novel technologies with real-world clinical demands, PSL reduces acquisition friction, streamlines procurement, and ensures consistent access to high-impact medical solutions. PSL Biomedical serves as a trusted partner to federal healthcare providers—delivering innovation, maintaining compliance, and enabling efficient, reliable access to the technologies that strengthen readiness and improve patient care.

## Core Competencies
